Appendix 2 – Group Member Agreement

The property of Sparta Mt WMA in the Town of Sparta, Sussex County, New Jersey is hereby enrolled in Forest Stewardship Council (FSC) certification, as provided by New Jersey Audubon Society (NJA), in accordance to FSC's Principles and Criteria and the conditions of NJA's accreditation as a SmartWood Program Group Entity. This certification is awarded as part of the NJA Conservation Department's Forest Stewardship Initiative, organized and administered by NJA and its board of directors.

Group Member certification is dependent upon compliance with NJA's Forest Management Plan number 1, which provides compliance procedures and responsibilities in Appendix 1, under sections titled "Become FSC Certified Through New Jersey Audubon" and "NJAS Group Limitation of Liabilities & Indemnification." The landowner agrees to comply with all provisions of the United States Forest Service's Forest Stewardship Program (FSP) and the United States Forest Service's Forest Land Enhancement Program (FLEP). Compliance with FSC standards, as outlined within your NJA plan, does not ensure New Jersey tax law requirements have been adequately satisfied.

Failure to comply with these guidelines will disqualify your property from FSC certification and may require you to forfeit certain cost-share payments received from participating in FSP, FLEP and others. Notice of disqualification will be provided in writing. Withdrawal from the program(s) must also be submitted in writing and is completely voluntary.
