# LIST OF NEW JERSEY PONDS, LAKES AND RESERVOIRS OPEN TO PUBLIC ANGLING

At last count there were over 4,100 freshwater lakes, ponds, impoundments and reservoirs, one acre or greater, in New Jersey. These amount to over 61,000 acres. This sounds like an awful lot of fishing water, however, because most of them are privately controlled, the great majority of these waters are closed to the general angler. The following list of waters is designed to assist the fisherman in finding a place to fish and to give a general idea of what facilities and species of game and panfish occur at each location. The list is not 100 percent complete and will never be 100 percent accurate, as conditions change constantly. We have included only those waters where a good population of desirable species of worthwhile sizes exists and where public access is assured. For a list of Handicap-Accessible Fishing Sites contact the NJDF&W, Bureau of Freshwater Fisheries at PO Box 394, Lebanon, N.J. 08833, call (908) 236-2118 or visit the Division's website at [www.njfishandwildlife.com](http://www.njfishandwildlife.com).

—GOOD LUCK—

# SEGMENTS OF PUBLICLY OWNED NEW JERSEY STREAMS OPEN TO ANGLING

If you've ever looked around for a nice stretch of stream to fish and have run into a host of "No Trespassing" signs, the following list is for you. It's a list of stream stretches publicly owned and open to the general angler. These represent only a small percent of the approximately 8,600 miles of freshwater streams in the State, however, these waters should provide stretches of uninterrupted "hassle free" fishing. Also included is a generalized description of the major gamefish and panfish population present as well as the recreational facilities available.

—GOOD LUCK—

# DELAWARE RIVER BOAT ACCESS SITES

N.J. Department of Environmental Protection  
 Division of Fish and Wildlife  
[www.njfishandwildlife.com](http://www.njfishandwildlife.com)

This list of sites was compiled to assist anglers in locating boating access to the Delaware River from the NJ/NY state line downstream to the Commodore Barry Bridge line at the Commodore Barry Bridge in Pennsville, Salem County, NJ (several sites below the Commodore Barry Bridge are also included). These access sites are open to the general public and are listed in order from north to south. When fishing upstream from the Commodore Barry Bridge, valid New Jersey or Pennsylvania fishing licenses are recognized on both shorelines, and anglers may launch from either shore. Upon returning, an angler may have in possession any fish which might be legally taken according to the regulations of the state from which the angler launched his/her boat.
