

2010-2011 Deer Harvest

SUMMARIES

NEW JERSEY DEER hunters harvested 55,404 deer during the 2010–2011 season between September 11, 2010 and February 19, 2011. The harvest for this year's deer season is the highest in four years, and is five percent higher than the 52,784 deer taken in 2009. The antlerless portion of the 2010 harvest was 35,479 deer, up almost 4 percent from 2009. The antlered portion of the 2010 harvest was 19,925 deer, up over 5.5 percent from 2009. 🍖

This buck, scoring 128 2/8 (on the Boone & Crockett system) was taken by Marlboro resident Taylor Carbone, 16, using a muzzleloading rifle. Taylor was quite excited after learning her buck will be part of New Jersey's Outstanding Deer Program and said, "I can't get over it!"

Hunters Helping the Hungry Needs Help with Meat-processing Costs

Hunters Helping the Hungry, an organization that has enabled hunters to provide over one million servings of tasty and nutritious venison to feed New Jersey families since 1997, needs some help from the public to cover the costs of professional meat processing.

The program, which donated more than 29,100 pounds of venison to food banks and charitable organizations last year alone, operates with limited funding. Butchers who participate in the Hunters Helping the Hungry program receive \$65 to process the donated deer. Currently, hunters who donate deer to feed the hungry must contribute either \$10 (for field-dressed deer weighing 50 lbs. or more) or \$25 (for deer under 50 lbs.) toward that processing fee. If the program's funding runs out, hunters who donate deer will have to cover the entire cost for meat-processing.

Hunters should check on funding availability before harvesting a deer intended for donation by visiting the Web site below.

Anyone interested in making a charitable contribution to offset the program's meat-processing costs can visit our Web site at HuntersHelpingTheHungry.org to donate securely through PayPal or send a check payable to: Hunters Helping the Hungry, P.O. Box 587, Lebanon, NJ 08833.

FOLLOWING COMMENCEMENT OF the black bear season, the Commissioner of DEP or the Fish and Wildlife Director, after consultation with the Fish and Game Council Chairman, may close the season. The Commissioner or the Director will announce such closure, which will become effective 24 hours from the daily legal closing time of the day on which the decision is made, based upon data obtained and reviewed by Fish and Wildlife. The notification number for season closure is the permit hotline number, (609) 292-9192. Season closure notification will also be announced by news release, radio and Fish and Wildlife's Web site NJFishandWildlife.com.

Black Bear Hunting Season: Dec. 5–10, 2011

Hunting Hours: Legal hunting hours for black bear shall be ½ hour before sunrise to ½ hour after sunset.

Bag Limit: Only one bear of either sex and any age may be taken per properly licensed hunter or farmer hunter regardless of the number of black bear permits held. It is unlawful to take or attempt to take or continue to hunt for more than the number of black bear permitted.

Special permit requirement: All black bear hunters must have a current and valid firearm hunting license and a special Black Bear Hunting Permit issued by Fish and Wildlife. See Black Bear Management Zone descriptions, page 61; see also *Black Bear Hunting Permits*, page 13. Hunters are limited to purchasing two black bear hunting permits, one each for two different zones. The bag limit remains at one black bear per hunter.

Game Care: It is critical to remove the hide and cool the bear immediately after checking the bear. Cooling a bear with ice from inside the body cavity is inadequate to prevent the meat from spoiling. If the hide remains on overnight, the meat may be unsuitable for consumption.

Youth Bear Hunters: Youth hunters (aged 10 through 13 on or before Dec. 5, 2011), with a valid hunting license must also possess a black bear hunting permit. Youth hunters must be under the direct supervision of a properly licensed adult (21 years of age or older) while bear hunting. The adult must also possess a black bear hunting permit. Direct supervision means the youth hunter and the supervising adult are together at the same location. The youth hunter may not hunt independently of the adult.

Firearms and Ammunition Legal For Bear Hunting

Shotgun: not smaller than 20 gauge nor larger than 10 gauge with rifled slugs. Lead, lead alloy or copper rifled slug or sabot slug. Buckshot is prohibited.

Muzzleloader Rifle: must be single-barrel, single shot rifles not less than .44 caliber. Flintlock, percussion and in-line ignitions are allowed. Double barrel muzzleloaders prohibited. Persons hunting with a muzzleloader rifle must also possess a current and valid rifle hunting permit.

Baiting: No person shall attempt to take or kill a black bear or have in their possession or control any firearm, or other weapon of any kind, while elevated in a standing tree or in a structure of any kind within 300 feet of a baited area. On national wildlife refuges and at the Delaware Water Gap National Recreation Area, the distribution of bait and/or hunting over bait is prohibited. Hunters should also check with the landowner or administrative agency before placing bait on any hunting area.

Additional Black Bear Hunting Regulations

- Black bear hunters must wear a hat of solid fluorescent hunter orange or an outer garment containing at least 200 square inches of fluorescent orange material visible from all sides at all times while bear hunting.
- It shall be illegal to use dogs to pursue or run black bear.
- Allowable hunting methods: stand hunting, still-hunting or drive hunting.
- Hunters using or possessing any shotgun slug in the field during the bear seasons must have a shotgun with adjustable open iron or peep sights or a scope affixed to the shotgun.
- Telescopic sights of any magnification (scope power) are permitted for bear hunting on all firearms, including muzzleloader rifles.
- Shotgun shells containing single spherical projectiles referred to as pumpkin balls are prohibited.
- While bear hunting with a shotgun, it is illegal to have in possession any ammunition not authorized for bear hunting.
- Only one muzzleloader rifle may be in possession while bear hunting.
- All firearms must be cased and unloaded while being transported in vehicles.
- It is illegal to take or attempt to take a black bear with a bow and arrows or with a crossbow.
- It is illegal to take or attempt to take a bear in a den structure.

After Harvesting a Bear— Mandatory Bear Check Requirement

Properly licensed hunters who harvest a black bear shall immediately complete and affix to the bear hide the "Black Bear Transportation Tag" from their Black Bear Hunting Permit. Information included on the black bear transportation tag shall include: the hunter's name, address, current firearm license number; date and time of kill; nearest road, county and municipality of kill; and the sex of the black bear. When field dressing a black bear, leave the sex organs intact and attached to the body.

It is critical to remove the hide and cool the bear immediately after checking the bear. Cooling a bear with ice from inside the body cavity is inadequate to prevent the meat from spoiling. If the hide remains on overnight, the meat may be unsuitable for consumption.

Successful hunters must take the black bear to a

designated check station by 7 p.m. on the day of the kill. Hunters shall surrender the black bear transportation tag and will be issued a legal possession seal.

Any legally killed black bear recovered too late to be brought to a designated black bear check station by 7 p.m. on the date of the kill must be re-reported immediately by telephone to the Northern Region Office of the Bureau of Law Enforcement (908) 735-8240. On the telephone message recording device, hunters must leave their name, address and a telephone number where they can be reached. The harvested black bear must be brought to a designated black bear check station on the next weekday to be registered and to receive a legal possession seal. After check stations have closed on Saturday, hunters reporting a bear harvest via the Law Enforcement recorder will be contacted by a Fish and Wildlife biologist on Sunday to legally check the bear and to collect biological data.

Black Bear Game Care

As when cooking any raw meat, care must be taken to prevent exposure to disease when consuming wild game. Black bear are known to carry *Trichinella*, a parasite commonly associated with pork. States nationwide report incidents of bears infected with *Trichinella* and New Jersey is no different. A *Trichinella* infection (*Trichinellosis*) is a risk only if the meat is cooked improperly. To ensure bear meat is safe to eat, be sure it's cooked to an internal temperature of 170 degrees for at least 15 seconds.

Toxoplasmosis, most commonly associated with cats, is another parasitic disease that may be transmitted to humans if meat is not handled properly. To eliminate any health risks associated with Toxoplasmosis make sure no one who may be pregnant handle raw bear meat and always cook the meat thoroughly as you would for *Trichinella*. If you follow these simple guidelines you can enjoy your bear meat without any concern for exposure to *Trichinella* or Toxoplasmosis. ➤

Regulations in **red** are new this year.
Purple text indicates an important note.

A CURRENT AND valid hunting license (Bow and Arrow, Firearm or All-Around Sportsman) is required to pursue any small game species. See page 25 for *General Hunting Regulations*. The use of dogs, unless specifically stated otherwise, is permitted to pursue any small game species, except wild turkey. Hunting for those species shown on page 65 is prohibited during the statewide Six-day Firearm (deer) Season and on the Wednesday of the Permit Shotgun (deer) Season that immediately follows the Six-day Firearm Season. For exceptions, see *Coyote and Fox* and *Semi-wild and Commercial Preserve Hunting* sections below. Sunday hunting is prohibited; see *Raccoon and Opossum*, page 64 plus *Semi-wild and Commercial Shooting Preserves* for exceptions.

Season Dates and Bag Limits: The *Small Game Hunting Seasons* table on page 65 lists dates, hunting hours and daily bag limits for all small game species open for hunting. Hunting with firearms is prohibited on Nov. 11, 2011 on state wildlife management areas designated as Pheasant and Quail Stamp Areas (see *Pheasants* below) except in tidal marshes open to an on-going waterfowl season.

General Small Game Hunting Methods: Properly licensed hunters may hunt small game with shotguns or bow and arrow and limited hunting with small caliber rifles; see below. See also *General Hunting Regulations*, page 25.

Shotgun: Unless specifically stated otherwise, shotguns for small game hunting may be single or double barrel, rifled or smoothbore and not larger than 10-gauge or smaller than .410 caliber and capable of holding no more than three shells.

Shot: Unless specifically stated otherwise, shot size for small game hunting may be no larger than #4 fine shot.

Bow and Arrow: All bows must meet the requirements specified in *General Hunting Regulations*, page 25. **For taking game birds in flight, arrows equipped with an edged head are prohibited. Flu flu arrows are required for taking game birds in flight.**

Muzzleloading Rifles: For limited small game rifle hunting, see below for *Coyote and Fox—Special Permit Season, Raccoon and Opossum, Squirrel—Muzzleloading Rifle Season* and *Woodchuck* for restrictions.

Wildlife Damage: Property owners or their agents, and occupants of dwellings that are suffering damage from coyote, fox, opossum, raccoon, skunk, squirrel, weasel or woodchuck may control them by lawful means at any time subject to local ordinances.

Coyote and Fox, General and Special Permit Seasons

See chart below for both general and special permit season regulations for coyote and fox. **NOTE: All successful coyote hunters must report any coyote harvested to a Fish and Wildlife Regional Law Enforcement Office within 24 hours. Callers must identify themselves by name and daytime phone number.**

In addition to the general coyote and fox seasons described in the chart below, properly licensed persons hunting deer during the Six-day Firearm, Permit Muzzleloader or Permit Shotgun deer seasons may kill coyote or fox when the person is in possession of a valid deer transportation tag for the applicable deer season (i.e., before harvesting a deer.) All hunting must cease immediately upon harvesting the daily deer bag limit and completing the deer transportation tag(s). Incidental hunting of coyote

or fox while deer hunting may resume following the issuance of a New Jersey Supplemental Deer Transportation Tag for the applicable deer season (provided the season remains open and the season bag limit of deer has not been reached.) Only applicable projectiles approved for deer hunting may be used to take coyote and fox incidental to deer hunting during the deer seasons described above. See *Firearms, Bow and Ammunition* chart, page 31.

Further, in addition to the general Coyote and Fox seasons plus the incidental harvest of coyote or fox while deer hunting, a Special Permit Coyote and Fox Season runs concurrent with the regular small game coyote and fox season. A Fish and Wildlife-issued permit is required to hunt coyote under the provisions (see below) of the Special Permit Coyote and Fox Season; as follows:

A permit to hunt coyote or fox is required 1) to hunt at night and/or 2) to use shot sizes larger than #4 and up to size T, and/or 3) using a muzzleloader other than incidental to deer hunting.

Coyote/Fox permits: \$2, available at any license agent or via Fish and Wildlife's Internet license sales site (www.NJ.WildlifeLicense.com) beginning December 15. A hunting license must be purchased prior to or in conjunction with the purchase of a Special Coyote and Fox Permit.

Northern Bobwhite (Quail)

Northern bobwhite quail are native to the southern half of New Jersey. In recent years, quail populations have declined throughout their range including New Jersey. In an effort to reverse this decline in New Jersey, exacerbated by severe snowfalls during the last two seasons, **the statewide quail hunting**

season will be closed beginning with the 2011–12 season except at Peaslee WMA and Greenwood Forest WMA where Fish and Wildlife will provide hunters and falconers the opportunity to hunt for quail. See *Small Game Hunting Seasons* chart, page 65 for season dates and bag limits. **Exception:** This statewide closure does not apply to semi-wild and commercial shooting preserves licensed during the 2009–10 season.

Pheasant

See *Small Game Hunting Seasons* chart, page 65 for season dates and bag limits. See exceptions below for semi-wild and commercial preserve hunting.

Pheasant and Quail Stamp Areas: Anyone aged 16 and over (except 16 year olds whose Youth License remains valid until Dec. 31 in the year they reach 16 years of age) hunting or possessing pheasant or quail on the following designated wildlife management areas shall have in possession a current and valid Pheasant and Quail Stamp (Youth Hunting licenses include pheasant and quail stamp): Assunpink, Berkshire Valley, Millville (Bevan), Black River, Clinton, Colliers Mills, Dix, Flatbrook, Glassboro, Greenwood (including Pasadena-Howardsville), Heislerville, Tuckahoe (MacNamara), Mad Horse, Manahawkin, Manasquan River, Medford, Nantuxent, Peaslee, Pequest, Port Republic, Stafford Forge, Walpack, Whittingham and Winslow. A current and valid Pheasant and Quail Stamp is also required at the Delaware River National Recreation Area.

Pheasant and Quail Stocking

Fish and Wildlife anticipates pheasant releases to be in excess of 50,000 birds, and plans to purchase 11,000 quail for release as follows:

Assunpink, Berkshire Valley, Black River, Clinton, Colliers Mills, Dix, Flatbrook, Glassboro, Millville (Bevan), Nantuxent, Pequest, Port Republic, Tuckahoe (MacNamara), Walpack and Whittingham WMAs will be stocked with pheasant for the following dates:

- Nov. 12, 15, 17, 19, 22, 24, 26

and the Heislerville, Howardsville, Mad Horse, Manahawkin, Manasquan, Medford, Stafford Forge and Winslow WMAs will be stocked with pheasant for the following dates:

- Nov. 12, 19, 24, 26
- Dec. 3, 17, 24, 27, 29, 31

Greenwood Forest and Peaslee WMAs will be stocked with quail for the following dates:

- Nov. 12, 15, 17, 19, 22, 24, 26
- Dec. 3, 17, 20, 22, 24, 27, 29, 31

Fish and Wildlife reminds sportsmen and sportswomen that the stocking schedule is tentative until approved by the Fish and Game Council in early October. The schedule is subject to pheasant production and may change due to emergency weather conditions. For changes to the stocking schedule due to inclement weather or other necessary adjustments, visit our Web site at NJFishandWildlife.com/phsstkcancl.htm.

Rabbit and Hare

The rabbit and hare hunting season will begin the last Saturday in September. The earlier opening date allows for hunting opportunity when rabbit populations are at their peak. Firearm hunting is prohibited on Nov. 11 on those wildlife management areas designated as Pheasant and Quail Stamp Areas. See *Small Game Hunting Seasons* chart, page 65 for season dates and bag limits.

Raccoon and Opossum

See *Small Game Hunting Seasons* chart, page 65 for season dates and bag limits.

Hours: Hunting may not begin until one hour after sunset on the opening day of the season. On all other days open during the season, the hours of hunting are one hour after sunset to one hour before sunrise. Sunday hunting is permitted only between the hours of midnight (Saturday) and one hour before sunrise (Sunday).

Hunting methods: Portable lights are permitted. Fluorescent orange is encouraged but not required on outer clothing while hunting raccoon and opossum. A current and valid rifle permit is required when possessing a .22 caliber rifles while hunting raccoon and opossum when only .22 caliber shorts are permitted.

Dog Training: Dogs may be trained during the month of September and from March 2 to May 1, inclusive. The training hours are one hour after sunset to one hour before sunrise.

Ruffed Grouse

The state's two ruffed grouse hunting zones are delineated by Rt. 70. North of Rt. 70 the season length will begin October 20. Firearm hunting is prohibited on Nov. 11 on those wildlife management areas designated as Pheasant and Quail Stamp Areas. South of Rt. 70 the season length will begin November 12 to reduce harvest mortality of the remaining populations in the southern zone. The

ruffed grouse zones are identical to those for woodcock and will provide for consistent regulations for these species that are often hunted simultaneously. See *Small Game Hunting Seasons* chart, page 65 for season dates and bag limits.

Semi-Wild and Commercial Preserve Hunting

Hunting for certain species of game birds is allowed from Nov. 12 to March 15 on semi-wild and from Sept. 1 through May 1 on commercial shooting preserve lands that are properly licensed for the taking of such species. These species of game may be hunted on Sunday only on semi-wild or commercial shooting preserve lands.

Youth hunters (in possession of a valid Youth Hunting License and accompanied by a licensed, non-shooting adult) will be permitted to hunt pheasant, quail and/or chukar partridge on licensed semi-wild preserves on Saturday, Nov. 5, 2011—the Youth Pheasant Hunting Day.

All game taken on semi-wild or commercial preserves must be properly tagged before being transported off the licensed property.

A person may legally hunt on semi-wild or commercial preserves for game birds during deer seasons, but no shot larger than #4 fine may be used. There are no daily bag or seasonal limits for pheasant, quail, chukar or mallards taken on commercial preserves. There are no daily bag limits for pheasant, quail or chukar taken on semi-wild properties. Seasonal harvests on semi-wild properties may not exceed the number of birds to be stocked as indicated on the semi-wild permit application.

Squirrel, Regular Season

See *Small Game Hunting Seasons* chart, page 65.

Squirrel, Muzzleloading Rifle Season

Persons holding a current and valid firearm license and rifle permit may hunt for squirrels from sunrise to ½ hour after sunset with a muzzleloading rifle (.36 caliber or smaller loaded with a single projectile) during the periods Sept. 24 to Nov. 11, 2011; and, Jan. 2 to Feb. 20, 2012. Firearm hunting is prohibited on Nov. 11 on those wildlife management areas designated as Pheasant and Quail Stamp Areas. Hunting for squirrel in the manner described above is restricted to the areas described below:

- Those portions of Passaic, Mercer, Hunterdon, Warren, Morris and Sussex counties lying within a continuous line beginning at the intersection of Rt. 513 and the New York State line; then south along Rt. 513 to its intersection with Rt. 511; then south along Rt. 511 to its intersection with Rt. 46; then west along Rt. 46 to its intersection with Rt. 80; then west along Rt. 80 to its intersection with Rt. 15; then north along Rt. 15 to its intersection with the Morris-Sussex County line; then south along the Morris-Sussex County line to the Warren County line; then southwest along the Morris

Woodchuck

All persons in possession of a rifle (including a muzzleloading rifle) while hunting woodchuck must have a current and valid rifle permit in addition to the current hunting license. Rifle hunting (of any kind) for woodchuck is prohibited on state wildlife management areas, state parks, state forests or state recreation areas. Farmers and their agents may use shot not larger than #4 buckshot to control woodchuck causing damage. Hours of hunting are sunrise to ½ hour after sunset. See chart at right for woodchuck hunting details. 🐿️

Warning to Violators

Be advised: two violations of wildlife management area regulations will result in loss of *all* sporting licenses and privileges for a period of five years.

Regulations in red are new this year.

Fall 2011 Turkey Hunting Regulations

- **New for 2011:** The Fish and Game Council has added an additional hunting day (Saturday) to the beginning of the fall turkey season. This additional day will provide more opportunity to hunters who work weekdays, and to youth hunters. The 2011 fall turkey season will consist of one seven-day hunting segment, N, (excluding Sunday) from Saturday, Oct. 29 through Saturday, Nov. 5, 2011. Fall hunting hours are one-half hour before sunrise until one-half hour after sunset. Turkey Hunting Areas 1-5, 8, 9, 11, 20-22 are open for fall hunting. Turkey Hunting Areas 6, 7, 10, 12 and 14-16 are closed to fall hunting.
- **New for 2011:** The Fish and Game Council has changed the boundary for Turkey Hunting Area 22. Turkey Hunting Area 22 is now larger and contains some of the southern parts of Turkey Hunting Area 16. Refer to the Turkey Hunting Area descriptions on our Web site (NJFishandWildlife.com/pdf/2011/turkey11.pdf) for details. This change will open the productive southern parts of Turkey Hunting Area 16 to fall turkey hunting.
- **Bag Limit:** One wild turkey of either sex per day during the fall season regardless of the number of permits the hunter holds.
- Dogs and artificial decoys may be used while turkey hunting in the fall season, except the use of electronically-operated decoys is prohibited. All hunters are required to possess a calling device while turkey hunting.
- The maximum group size while turkey hunting is five hunters. Hunters may not attempt to chase or drive turkeys for the purpose of putting them in range of other hunters. However, hunters may rush a flock of turkeys to cause the flock to scatter.
- No shot larger than #4 fine shot or smaller than #7½ fine shot may be used for turkey hunting.
- Hunters may not use shotguns larger than 10-gauge or smaller than 20-gauge for turkey hunting.

YOUTH TURKEY HUNT DAY APRIL 21, 2012 See page 24

If no turkey is harvested on this youth hunt day, Period Y permits may be used by the youth hunter in the designated zone for the balance of the season until a bird is harvested (see page 24).

Non-hunting adults accompanying youth turkey hunters need only have in possession a valid hunting license. Turkey hunting is by permit only. Spring and fall turkey hunting is by permit only. See *Turkey Hunting Permits, General*, page 14. For farmers, see *Farmer Turkey Permits*, page 28.

- Fluorescent hunter orange is not required to hunt turkey.
- Properly licensed hunters may use archery tackle to hunt turkeys.
- Turkeys may not be hunted within 300 feet of any baited area.

Immediately upon killing a turkey, hunters must complete the transportation tag on their fall hunting permit and affix it to the bird. The turkey must be taken to an official wild turkey check station by 7 p.m. on the day it is killed *by the hunter who killed the bird*.

Spring Turkey Season Changes

There are many factors that can contribute to changes in the turkey population, and very few of these factors (spring rainfall, for example) can be controlled by wildlife managers. One factor that wildlife managers can control is the length and timing of hunting seasons.

Spring gobbler hunting seasons are set to coincide with the time when hens begin to incubate their eggs. In New Jersey, this occurs in late April. Starting a spring season too early can be detrimental to turkey populations because hens abandon nests more readily if they are disturbed before they start to incubate. In addition, illegal take of hens occurs more frequently if a spring season starts before incubation, when hens are still mobile.

The second peak in gobbling activity occurs at the start of incubation, when nesting hens are no longer available to gobblers. The spring season should be timed to better coincide with this peak in gobbling activity.

Local and regional data on wild turkey hens showed that New Jersey's former spring season format was not optimally timed to help prevent nest abandonment and illegal take of hens. Therefore, New Jersey's spring gobbler season now begins later in April. This season structure favors the success of nesting hens, and will more closely match peaks in gobbling activity.

Spring 2012 Gobbler Hunting Regulations

Spring gobbler hunting regulations are published in the 2012 Wild Turkey Hunting Season permit supplement available in January. See *Turkey Hunting Permits, General*, page 14.

Turkey Hunting Seminars

The latest turkey hunting techniques are presented at several turkey hunting seminars sponsored by Fish and Wildlife or wildlife conservation organizations. These seminars focus on how to set up, calling techniques and key safety information for turkey hunters. New turkey hunters are especially encouraged to join us at a seminar. Check your newspaper and the January 2012 Wild Turkey Hunting Season permit supplement for the seminars scheduled during March and April. ♪

GOVERNOR'S SURF FISHING TOURNAMENT

By Karen Leskie, Wildlife Technician **Get Outside and Enjoy One of New Jersey's Natural Resources**

The 20th Annual Governor's Surf Fishing Tournament will be held Sunday, Oct. 2, 2011. Once again anglers from New Jersey and neighboring states will descend upon the beaches of Island Beach State Park in hopes of catching the longest fish of the day. The tournament aims to encourage youngsters and adults to learn more about surf fishing while taking advantage of a great family activity. Funds raised by the tournament go toward marine resource conservation and education.

A strong northeast wind blew hard all day at the 19th annual tournament, but that didn't discourage the nearly 800 anglers. Contestants caught blackfish, bluefish, kingfish and striped bass. A total of twenty prizes were awarded in categories for children, teens and adults. However, the grand prize went to Gary Grimm of Flanders, with a 30½-inch striped bass. Lieutenant Governor Kim Guadagno along with DEP Division of Fish and Wildlife Director, Dave Chanda

congratulated Mr. Grimm with a plaque and two rod-and-reel combinations. Also, Mr. Grimm's name has been engraved on the Governor's Cup, which is on permanent display at Island Beach State Park.

Since its inception in 1991, the tournament has generated more than \$120,000 for various marine education and restoration efforts, construction of access ramps for disabled saltwater anglers, surf fishing instruction programs and equipment, specialized wheel chairs that provide beach access to the disabled and elderly, plus the purchase of the first mobile automatic heart defibrillator for use at Island Beach State Park.

For more information about the Governor's Surf Fishing Tournament or to receive a registration form, visit NJFishandWildlife.com/gsft.htm or call (609) 748-4347. 

New Jersey Division of Fish and Wildlife (along with our co-sponsors: New Jersey Division of Parks and Forestry, New Jersey State Federation of Sportsmen's Clubs, Jersey Coast Anglers Association and New Jersey Beach Buggy Association) would like to thank the following organizations for contributing to the success of the 19th Annual Governor's Surf Fishing Tournament in 2010:
