

# 2020 SEDGE ISLAND RESEARCH EXPERIENCE

June 27-29, 2020

For Students Entering Grades 10-12 in fall of 2020

The NJ Division of Fish and Wildlife in partnership with Conserve Wildlife Foundation of NJ is offering a 3-day 2-night program open to students going into grades 10 through 12 in September 2020. This program is ideal for high school students interested in pursuing a college education in marine science or environmental studies.

During this program students will learn about various research methods through hands-on data collection, hear from a local college professor about research they are conducting, and spend time learning how to keep a scientific journal.

Students sorting through a sein net.
